MRPL13 Protein (AA 1-178) (His tag)

Overview Quantity: 1 mg Target: MRPL13 Protein Characteristics: AA 1-178 Origin: Cow Source: Yeast Protein Type: Recombinant Purification tag / Conjugate: This MRPL13 protein is labelled with His tag. Application: **ELISA Product Details**

Purity:	> 90 %		
Characteristics:	Please inquire if you are interested in this recombinant protein expressed in E. coli, mammalien cells or by baculovirus infection. Be aware about differences in price and lead time.		
Specificity:	Bos taurus (Bovine)		
	LMQRLHLFPD EDIPEDILKN LTEELPQPRK VPRRLDEYTQ EEIEAFPRVW SPPEDYRL		
	NTRHIAFSGN KWEQKVYSSH TGYPGGFKQV TAAQLHRKDP VAIVKLAIYG MLPKNLHRRT		
Sequence:	MASLSRAPQQ WATFARVWYL LDGKMQPPGK LAALASVRLQ GLHKPVYHQL SDCGDHVVIM		

Target Details

Target:	MRPL13
Alternative Name:	39S ribosomal protein L13, mitochondrial (MRPL13) (MRPL13 Products)

Target Details

Background:	Recommended name: 39S ribosomal protein L13, mitochondrial.
	Short name= L13mt.
	Short name= MRP-L13
UniProt:	Q3SYS1

Application Details

The yeast protein expression system is the most economical and efficient eukaryotic system for secretion and intracellular expression. A protein expressed by the mammalian cell system is of very high-quality and close to the natural protein. But the low expression level, the high cost of medium and the culture conditions restrict the promotion of mammalian cell expression systems. The yeast protein expression system serve as a eukaryotic system integrate the advantages of the mammalian cell expression system. A protein expressed by yeast system could be modificated such as glycosylation, acylation, phosphorylation and so on to ensure the native protein conformation. It can be used to produce protein material with high added value that is very close to the natural protein. Our proteins produced by yeast expression system has been used as raw materials for downstream preparation of monoclonal antibodies.

Restrictions:

For Research Use only

Handling

Format:	Lyophilized
Concentration:	0.2-2 mg/mL
Buffer:	Tris-based buffer, 50 % glycerol
Handling Advice:	Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to one week
Storage:	-20 °C
Storage Comment:	Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.
