

Datasheet for ABIN1631465

LRRC59 Protein (AA 1-244) (His tag)

/ \	111	> r	1/1	0	
	1/6	- 1	\/ I	\sim	1/1/
0	V	~ I	VΙ	\sim	v v

Quantity:	1 mg
Target:	LRRC59
Protein Characteristics:	AA 1-244
Origin:	Cow
Source:	Yeast
Protein Type:	Recombinant
Purification tag / Conjugate:	This LRRC59 protein is labelled with His tag.
Application:	ELISA
Product Details	
	MTIVACQUAQANI DONAL DONEL DI QUADINIEN DINICI ANI DIVATNI DI CONIVILITI DODECC
Sequence:	MTKAGSKGGN LRDKLDGNEL DLSLSDLNEV PVKELAALPK ATVLDLSCNK LTTLPSDFCG

Target Details

Alternative Name:	Leucine-rich repeat-containing protein 59 (LRRC59) (LRRC59 Products)	
Background:	Recommended name: Leucine-rich repeat-containing protein 59	
UniProt:	Q5E9X4	

Application Details

Comment:

The yeast protein expression system is the most economical and efficient eukaryotic system for secretion and intracellular expression. A protein expressed by the mammalian cell system is of very high-quality and close to the natural protein. But the low expression level, the high cost of medium and the culture conditions restrict the promotion of mammalian cell expression systems. The yeast protein expression system serve as a eukaryotic system integrate the advantages of the mammalian cell expression system. A protein expressed by yeast system could be modificated such as glycosylation, acylation, phosphorylation and so on to ensure the native protein conformation. It can be used to produce protein material with high added value that is very close to the natural protein. Our proteins produced by yeast expression system has been used as raw materials for downstream preparation of monoclonal antibodies.

Restrictions:

For Research Use only

Handling

Format:	Lyophilized	
Concentration:	0.2-2 mg/mL	
Buffer:	Tris-based buffer, 50 % glycerol	
Handling Advice:	Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to one week	
Storage:	-20 °C	
Storage Comment:	Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.
