RAB10 Protein (AA 1-200) (His tag)

Overview Quantity: 1 mg Target: RAB10 Protein Characteristics: AA 1-200 Origin: Orang-Utan Source: Yeast Protein Type: Recombinant Purification tag / Conjugate: This RAB10 protein is labelled with His tag. Application: **ELISA Product Details** MAKKTYDLLF KLLLIGDSGV GKTCVLFRFS DDAFNTTFIS TIGIDFKIKT VELQGKKIKL Sequence: QIWDTAGQER FHTITTSYYR GAMGIMLVYD ITNGKSFENI SKWLRNIDEH ANEDVERMLL GNKCDMDDKR VVPKGKGEQI AREHGIRFFE TSAKANINIE KAFLTLAEDI LRKTPVKEPN

Specificity: Pongo abelii (Sumatran orangutan)

SENVDISSGG GVTGWKSKCC

Characteristics: Please inquire if you are interested in this recombinant protein expressed in E. coli, mammalien cells or by baculovirus infection. Be aware about differences in price and lead time.

Purity: > 90 %

Target Details

Target: RAB10

Target Details

Alternative Name:	Ras-related protein Rab-10 (RAB10) (RAB10 Products)
Background:	Recommended name: Ras-related protein Rab-10
UniProt:	Q5R5U1
Pathways:	Asymmetric Protein Localization, SARS-CoV-2 Protein Interactome

Application Details

Comment:

The yeast protein expression system is the most economical and efficient eukaryotic system for secretion and intracellular expression. A protein expressed by the mammalian cell system is of very high-quality and close to the natural protein. But the low expression level, the high cost of medium and the culture conditions restrict the promotion of mammalian cell expression systems. The yeast protein expression system serve as a eukaryotic system integrate the advantages of the mammalian cell expression system. A protein expressed by yeast system could be modificated such as glycosylation, acylation, phosphorylation and so on to ensure the native protein conformation. It can be used to produce protein material with high added value that is very close to the natural protein. Our proteins produced by yeast expression system has been used as raw materials for downstream preparation of monoclonal antibodies.

Restrictions:

For Research Use only

Handling

Format:	Lyophilized
Concentration:	0.2-2 mg/mL
Buffer:	Tris-based buffer, 50 % glycerol
Handling Advice:	Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to one week
Storage:	-20 °C
Storage Comment:	Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.
