# ANTIBODIES ONLINE

# Datasheet for ABIN1635131 SP8 Protein (AA 1-500) (His tag)

1 3

| 1 mg   |
|--|
| SP8  |
| AA 1-500   |
| Xenopus laevis   |
| Yeast  |
| Recombinant  |
| This SP8 protein is labelled with His tag.   |
| ELISA  |
|  |

#### Product Details

Purity:

> 90 %

## Target Details

| Target:           | SP8   |
|-------------------|---|
| Alternative Name: | Transcription factor Sp8 (sp8) (SP8 Products) |
| Background:       | Recommended name: Transcription factor Sp8    |
| UniProt:          | Q5XGT8  |

### Application Details

| Comment: | The yeast protein expression system is the most economical and efficient eukaryotic system         |
|----------|--|
|          | for secretion and intracellular expression. A protein expressed by the mammalian cell system is    |
|          | of very high-quality and close to the natural protein. But the low expression level, the high cost |
|          | of medium and the culture conditions restrict the promotion of mammalian cell expression           |
|          | systems. The yeast protein expression system serve as a eukaryotic system integrate the            |
|          | advantages of the mammalian cell expression system. A protein expressed by yeast system            |
|          | could be modificated such as glycosylation, acylation, phosphorylation and so on to ensure the     |
|          | native protein conformation. It can be used to produce protein material with high added value      |
|          | that is very close to the natural protein. Our proteins produced by yeast expression system has    |
|          | been used as raw materials for downstream preparation of monoclonal antibodies.                    |
|          |  |

Restrictions:

For Research Use only

#### Handling

| Format:          | Lyophilized   |
|------------------|---|
| Concentration:   | 0.2-2 mg/mL   |
| Buffer:          | Tris-based buffer, 50 % glycerol  |
| Handling Advice: | Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to one week |
| Storage:         | -20 °C  |
| Storage Comment: | Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.                                |
