# MAT2B Protein (AA 2-334) (His tag)

$\sim$					
()	VE	۲۱	/1	$\triangle$	Λ

> 90 %

Purity:

Quantity:	1 mg
Target:	MAT2B
Protein Characteristics:	AA 2-334
Origin:	Rat
Source:	Yeast
Protein Type:	Recombinant
Purification tag / Conjugate:	This MAT2B protein is labelled with His tag.
Application:	ELISA

cells or by baculovirus infection. Be aware about differences in price and lead time.

#### **Target Details**

Target:	MAT2B	
Alternative Name:	Methionine adenosyltransferase 2 subunit beta (Mat2b) (MAT2B Products)	
Background:	Recommended name: Methionine adenosyltransferase 2 subunit beta.  Alternative name(s): Methionine adenosyltransferase II beta.  Short name= MAT II beta	
UniProt:	Q5U2R0	
Pathways:	Ribonucleoside Biosynthetic Process, Methionine Biosynthetic Process, SARS-CoV-2 Protein Interactome	

## **Application Details**

#### Comment:

The yeast protein expression system is the most economical and efficient eukaryotic system for secretion and intracellular expression. A protein expressed by the mammalian cell system is of very high-quality and close to the natural protein. But the low expression level, the high cost of medium and the culture conditions restrict the promotion of mammalian cell expression systems. The yeast protein expression system serve as a eukaryotic system integrate the advantages of the mammalian cell expression system. A protein expressed by yeast system could be modificated such as glycosylation, acylation, phosphorylation and so on to ensure the native protein conformation. It can be used to produce protein material with high added value that is very close to the natural protein. Our proteins produced by yeast expression system has been used as raw materials for downstream preparation of monoclonal antibodies.

Restrictions:

For Research Use only

### Handling

Format:	Lyophilized	
Concentration:	0.2-2 mg/mL	
Buffer:	Tris-based buffer, 50 % glycerol	
Handling Advice:	Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to one week	
Storage:	-20 °C	
Storage Comment:	Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.
