Datasheet for ABIN1638238 RNASE8 Protein (AA 29-155) (His tag)

arget:	RNASE8
arget Details	
urity:	> 90 %
	cells or by baculovirus infection. Be aware about differences in price and lead time.
haracteristics:	Please inquire if you are interested in this recombinant protein expressed in E. coli, mammalier
pecificity:	Aotus trivirgatus (Night monkey) (Douroucouli)
	FDKVV
equence:	KP EGMTSSQWFN TQHVQPSPQA CDSAMRDINK HTKRCKDLNT FLHKPFSSVA ATCQTPNITC KNGHKNCHQS HRPVSLTMCG LTSGKYPNCR YKEEHQNKSY VVACEPPQQG DPEHSLVPVH
roduct Details	
pplication:	ELISA
urification tag / Conjugate:	This RNASE8 protein is labelled with His tag.
rotein Type:	Recombinant
ource:	Yeast
rigin:	Owl Monkey
rotein Characteristics:	AA 29-155
arget:	RNASE8
uantity:	1 mg
overview uantity:	1 mg

Target Details	
Background:	Recommended name: Ribonuclease 8. Short name= RNase 8.
	EC= 3.1.27
UniProt:	Q8SPZ5
Application Details	

The yeast protein expression system is the most economical and efficient eukaryotic system
for secretion and intracellular expression. A protein expressed by the mammalian cell system is
of very high-quality and close to the natural protein. But the low expression level, the high cost
of medium and the culture conditions restrict the promotion of mammalian cell expression
systems. The yeast protein expression system serve as a eukaryotic system integrate the
advantages of the mammalian cell expression system. A protein expressed by yeast system
could be modificated such as glycosylation, acylation, phosphorylation and so on to ensure the
native protein conformation. It can be used to produce protein material with high added value
that is very close to the natural protein. Our proteins produced by yeast expression system has
been used as raw materials for downstream preparation of monoclonal antibodies.

Restrictions:

For Research Use only

Handling

Format:	Lyophilized
Concentration:	0.2-2 mg/mL
Buffer:	Tris-based buffer, 50 % glycerol
Handling Advice:	Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to one week
Storage:	-20 °C
Storage Comment:	Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.
