Datasheet for ABIN1640350 SDHA Protein (AA 36-656) (His tag)

Overview

Quantity:	1 mg
Target:	SDHA
Protein Characteristics:	AA 36-656
Origin:	Rat
Source:	Yeast
Protein Type:	Recombinant
Purification tag / Conjugate:	This SDHA protein is labelled with His tag.
Application:	ELISA

Product Details

Product Details	
Characteristics:	Please inquire if you are interested in this recombinant protein expressed in E. coli, mammalien cells or by baculovirus infection. Be aware about differences in price and lead time.
Purity:	> 90 %
Target Details	
Target:	SDHA
Alternative Name:	Succinate dehydrogenase [ubiquinone] flavoprotein subunit, mitochondrial (Sdha) (SDHA Products)
Background:	Recommended name: Succinate dehydrogenase [ubiquinone] flavoprotein subunit, mitochondrial. EC= 1.3.5.1. Alternative name(s): Flavoprotein subunit of complex II. Short name= Fp
UniProt:	Q920L2
Application Details	
Comment:	The yeast protein expression system is the most economical and efficient eukaryotic system for secretion and intracellular expression. A protein expressed by the mammalian cell system is of very high-quality and close to the natural protein. But the low expression level, the high cost of medium and the culture conditions restrict the promotion of mammalian cell expression systems. The yeast protein expression system serve as a eukaryotic system integrate the advantages of the mammalian cell expression system. A protein expressed by yeast system could be modificated such as glycosylation, acylation, phosphorylation and so on to ensure the native protein conformation. It can be used to produce protein material with high added value that is very close to the natural protein. Our proteins produced by yeast expression system has been used as raw materials for downstream preparation of monoclonal antibodies.
Restrictions:	For Research Use only
Handling	
Format:	Lyophilized
Concentration:	0.2-2 mg/mL
Buffer:	Tris-based buffer, 50 % glycerol

Handling Advice:	Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to one week
Storage:	-20 °C
Storage Comment:	Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.
