SMAD6 Protein (AA 1-431) (His tag)

Go to Product page

\sim			
	N/P	r\/	i⊢₩

Quantity:	1 mg
Target:	SMAD6
Protein Characteristics:	AA 1-431
Origin:	Chicken
Source:	Yeast
Protein Type:	Recombinant
Purification tag / Conjugate:	This SMAD6 protein is labelled with His tag.
Application:	ELISA

Please inquire if you are interested in this recombinant protein expressed in E. coli, mammalien	
cells or by baculovirus infection. Be aware about differences in price and lead time.	

Product Details > 90 % Purity: **Target Details** Target: SMAD6 Alternative Name Mothers against decapentaplegic homolog 6 (SMAD6) (SMAD6 Products) Background: Recommended name: Mothers against decapentaplegic homolog 6. Short name= MAD homolog 6. Short name= Mothers against DPP homolog 6. Alternative name(s): SMAD family member 6. Short name= SMAD 6. Short name= Smad6 UniProt: Q9W734 Pathways: **Chromatin Binding Application Details** Comment: The yeast protein expression system is the most economical and efficient eukaryotic system for secretion and intracellular expression. A protein expressed by the mammalian cell system is of very high-quality and close to the natural protein. But the low expression level, the high cost of medium and the culture conditions restrict the promotion of mammalian cell expression systems. The yeast protein expression system serve as a eukaryotic system integrate the advantages of the mammalian cell expression system. A protein expressed by yeast system could be modificated such as glycosylation, acylation, phosphorylation and so on to ensure the native protein conformation. It can be used to produce protein material with high added value that is very close to the natural protein. Our proteins produced by yeast expression system has been used as raw materials for downstream preparation of monoclonal antibodies. Restrictions: For Research Use only

Handling

Format:

Lyophilized

Concentration:

0.2-2 mg/mL

Buffer:

Tris-based buffer, 50 % glycerol

Handling Advice:

Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to

Handling

	one week	
Storage:	-20 °C	
Storage Comment:	Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.
