Datasheet for ABIN1662424 14-3-3-like protein A Protein (AA 1-261) (His tag)

-online.com antibodies

Overview

Quantity:	1 mg
Target:	14-3-3-like protein A (LOC100283215)
Protein Characteristics:	AA 1-261
Origin:	Vicia faba
Source:	Yeast
Protein Type:	Recombinant
Purification tag / Conjugate:	This 14-3-3-like protein A protein is labelled with His tag.
Application:	ELISA
Draduat Dataila	
Product Details

Target Details	
Target:	14-3-3-like protein A (LOC100283215)
Alternative Name:	14-3-3-like protein A (LOC100283215 Products)
Background:	Recommended name: 14-3-3-like protein A. Alternative name(s): VFA-1433A
UniProt:	P42653

## Application Details

Comment:	The yeast protein expression system is the most economical and efficient eukaryotic system
	for secretion and intracellular expression. A protein expressed by the mammalian cell system is
	of very high-quality and close to the natural protein. But the low expression level, the high cost
	of medium and the culture conditions restrict the promotion of mammalian cell expression
	systems. The yeast protein expression system serve as a eukaryotic system integrate the
	advantages of the mammalian cell expression system. A protein expressed by yeast system
	could be modificated such as glycosylation, acylation, phosphorylation and so on to ensure the
	native protein conformation. It can be used to produce protein material with high added value
	that is very close to the natural protein. Our proteins produced by yeast expression system has
	been used as raw materials for downstream preparation of monoclonal antibodies.

Restrictions:

For Research Use only

## Handling

Format:	Lyophilized
Concentration:	0.2-2 mg/mL
Buffer:	Tris-based buffer, 50 % glycerol
Handling Advice:	Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to one week
Storage:	-20 °C
Storage Comment:	Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.
