Quantity:	1 mg
Target:	Chitinase 3 (CHT3)
Protein Characteristics:	AA 18-462
Origin:	Candida albicans
Source:	Yeast
Protein Type:	Recombinant
Purification tag / Conjugate:	This Chitinase 3 protein is labelled with His tag.
Application:	ELISA

Product Details	
Sequence:	SNI AAYWGQNAGG DQQTLGDYCS SSPASIIILS FLDGFPNLSL NFANQCSGTF SSGLAHCSQI
	GSDIKSCQQQ GKTILLSLGG ATGNYGFSSD SEAVQFAGTL WNKFGGGKDS ERPFDDAIVD

	DSSFGGISIW DISSAENGGY LNQLYQALSG SGSPAAPSNS YQPNTPLTRT YGGSTATASA
	YISVGFTAGA THGSTTTNDL LAWIDSLFGS SQSSVQQYAT PVQSVTATPQ PVAATTTSAP
	KPTASAFNWF GWFDGTTTST TLQTVYSTVP ADQTVYVTLT TTVGSQMLQS LFDKRDVIAE
	AKSTNLQICW LLFIPLLALI CS
Specificity:	Candida albicans (Yeast)
Characteristics:	Please inquire if you are interested in this recombinant protein expressed in E. coli, mammalien
	cells or by baculovirus infection. Be aware about differences in price and lead time.

## **Product Details** > 90 % Purity: **Target Details** Chitinase 3 (CHT3) Target: Alternative Name Chitinase 1 (CHT1) (CHT3 Products) Background: Recommended name: Chitinase 1. EC= 3.2.1.14 UniProt: P46876 **Application Details** Comment: The yeast protein expression system is the most economical and efficient eukaryotic system for secretion and intracellular expression. A protein expressed by the mammalian cell system is of very high-quality and close to the natural protein. But the low expression level, the high cost of medium and the culture conditions restrict the promotion of mammalian cell expression systems. The yeast protein expression system serve as a eukaryotic system integrate the advantages of the mammalian cell expression system. A protein expressed by yeast system could be modificated such as glycosylation, acylation, phosphorylation and so on to ensure the native protein conformation. It can be used to produce protein material with high added value that is very close to the natural protein. Our proteins produced by yeast expression system has been used as raw materials for downstream preparation of monoclonal antibodies. Restrictions: For Research Use only Handling

Format:	Lyophilized	
Concentration:	0.2-2 mg/mL	
Buffer:	Tris-based buffer, 50 % glycerol	
Handling Advice:	Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to one week	
Storage:	-20 °C	
Storage Comment:	Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.
