Datasheet for ABIN1666781 HNS Protein (AA 2-137) (His tag)

Overview	
Quantity:	1 mg
Target:	HNS
Protein Characteristics:	AA 2-137
Origin:	Salmonella typhimurium
Source:	Yeast
Protein Type:	Recombinant
Purification tag / Conjugate:	This HNS protein is labelled with His tag.
Application:	ELISA
Product Details	
Sequence:	SEALKILNN IRTLRAQARE CTLETLEEML EKLEVVVNER REEESAAAAE VEERTRKLQQ
	YREMLIADGI DPNELLNSMA AAKSGTKAKR AARPAKYSYV DENGETKTWT GQGRTPAVIK
	KAMEEQGKQL EDFLIKE
Specificity:	Salmonella typhimurium (strain LT2 / SGSC1412 / ATCC 700720)
Characteristics:	Please inquire if you are interested in this recombinant protein expressed in E. coli, mammalier
	cells or by baculovirus infection. Be aware about differences in price and lead time.
Purity:	> 90 %
Target Details	
Target:	HNS
Abstract:	HNS Products

Target Details	
Background:	Recommended name: DNA-binding protein H-NS. Alternative name(s): Histone-like protein HLP-II Protein B1 Protein H1
UniProt:	P0A1S2
Application Details	
Comment:	The yeast protein expression system is the most economical and efficient eukaryotic system for secretion and intracellular expression. A protein expressed by the mammalian cell system is of very high-quality and close to the natural protein. But the low expression level, the high cost of medium and the culture conditions restrict the promotion of mammalian cell expression systems. The yeast protein expression system serve as a eukaryotic system integrate the advantages of the mammalian cell expression system. A protein expressed by yeast system could be modificated such as glycosylation, acylation, phosphorylation and so on to ensure the native protein conformation. It can be used to produce protein material with high added value that is very close to the natural protein. Our proteins produced by yeast expression system has been used as raw materials for downstream preparation of monoclonal antibodies.
Restrictions:	For Research Use only
Handling Format:	Lyophilized
Concentration:	Lyophilized 0.2-2 mg/mL
Buffer:	Tris-based buffer, 50 % glycerol
Handling Advice:	Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to one week
Storage:	-20 °C
Storage Comment:	Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.
