

Datasheet for ABIN1669064

Otolin 1 Protein (OTOL1) (AA 24-489) (His tag)

Overview

Quantity:	1 mg
Target:	Otolin 1 (OTOL1)
Protein Characteristics:	AA 24-489
Origin:	Zebrafish (Danio rerio)
Source:	Yeast
Protein Type:	Recombinant
Purification tag / Conjugate:	This Otolin 1 protein is labelled with His tag.
Application:	ELISA

Product Details	
Sequence:	SIDKTTQ WPRMKPTKKP PPRDEGPSKL GSISTTVSPT AIGITEEVTD AMMDAYTITS

	QASNMAVLRL SSGDQVWLET LRDWNGVYSS SEDDSTFSGF LLYADATKD
Specificity:	Danio rerio (Zebrafish) (Brachydanio rerio)
Characteristics:	Please inquire if you are interested in this recombinant protein expressed in E. coli, mammalien
	cells or by baculovirus infection. Be aware about differences in price and lead time.

Product Details > 90 % Purity: **Target Details** Otolin 1 (OTOL1) Target: Otolin-1-A (otol1a) (OTOL1 Products) Alternative Name Background: Recommended name: Otolin-1-A. Alternative name(s): zOtolin1 UniProt: A5PN28 **Application Details** The yeast protein expression system is the most economical and efficient eukaryotic system Comment: for secretion and intracellular expression. A protein expressed by the mammalian cell system is of very high-quality and close to the natural protein. But the low expression level, the high cost of medium and the culture conditions restrict the promotion of mammalian cell expression systems. The yeast protein expression system serve as a eukaryotic system integrate the advantages of the mammalian cell expression system. A protein expressed by yeast system could be modificated such as glycosylation, acylation, phosphorylation and so on to ensure the native protein conformation. It can be used to produce protein material with high added value that is very close to the natural protein. Our proteins produced by yeast expression system has been used as raw materials for downstream preparation of monoclonal antibodies. Restrictions: For Research Use only Handling Format: Lyophilized Concentration: 0.2-2 mg/mL Buffer: Tris-based buffer, 50 % glycerol Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to Handling Advice: one week

Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.

Storage:

Storage Comment:

-20 °C
