## Datasheet for ABIN1672096 LIPM Protein (AA 1-276) (His tag)

| Overview                      |  |
|-------------------------------|--|
| Quantity:                     | 1 mg   |
| Target:                       | LIPM   |
| Protein Characteristics:      | AA 1-276   |
| Origin:                       | Macrococcus caseolyticus   |
| Source:                       | Yeast  |
| Protein Type:                 | Recombinant  |
| Purification tag / Conjugate: | This LIPM protein is labelled with His tag.  |
| Application:                  | ELISA  |
| Product Details               |  |
| Sequence:                     | MQEEWLFINT HKNNPYYNMA MDEALLNLVS QGALPPVIRF YGWAPKTLSI GYFQKLEKEI                                |
|                               | DLDKVNAGGY GLVRRATGGR GVLHDKELTY SVIVPESHPM MPESVTAAYK VISTGLLEGF                                |
|                               | KNLGFQAEFS VPRTKEDRER LKDPRSSVCF DASSWYELVV EGKKIAGSAQ TRQKGVILQH                                |
|                               | GSILQSIDVD ELFDLFIFSS ERLKERMKRS FYSKAVSIAD LTDEEITIAM MEEAFYEGFE                                |
|                               | KGLDIKLKPF EVTAEIEQEV SVLIEKYRSE EWLKRR  |
| Specificity:                  | Macrococcus caseolyticus (strain JCSC5402)   |
| Characteristics:              | Please inquire if you are interested in this recombinant protein expressed in E. coli, mammalien |
|                               | cells or by baculovirus infection. Be aware about differences in price and lead time.            |
| Purity:                       | > 90 %   |

## Target Details

| Target:           | LIPM   |
|-------------------|--|
| Alternative Name: | Octanoyltransferase LipM (lipM) (LIPM Products)  |
| Background:       | Recommended name: Octanoyltransferase LipM.<br>EC= 2.3.1.181.<br>Alternative name(s): Octanoyl-[acyl-carrier-protein]:[GcvH] N-octanoyltransferase |
| UniProt:          | B9E6R6   |

## Application Details

| d intracellular expression. A protein expressed by the mammalian cell system is     |
|---|
| ality and close to the natural protein. But the low expression level, the high cost |
| the culture conditions restrict the promotion of mammalian cell expression          |
| east protein expression system serve as a eukaryotic system integrate the           |
| he mammalian cell expression system. A protein expressed by yeast system            |
| cated such as glycosylation, acylation, phosphorylation and so on to ensure the     |
| onformation. It can be used to produce protein material with high added value       |
| e to the natural protein. Our proteins produced by yeast expression system has      |
| aw materials for downstream preparation of monoclonal antibodies.                   |
|   |

Restrictions:

For Research Use only

## Handling

| Format:          | Lyophilized   |
|------------------|---|
| Concentration:   | 0.2-2 mg/mL   |
| Buffer:          | Tris-based buffer, 50 % glycerol  |
| Handling Advice: | Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to one week |
| Storage:         | -20 °C  |
| Storage Comment: | Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.                                |
