

Datasheet for ABIN1690702

**anti-Tyrosine Hydroxylase antibody (Sepharose)**[Go to Product page](#)

## Overview

|              |                                                               |
|--------------|---------------------------------------------------------------|
| Quantity:    | 100 µg                                                        |
| Target:      | Tyrosine Hydroxylase (TH)                                     |
| Reactivity:  | Human, Rat, Rabbit                                            |
| Host:        | Mouse                                                         |
| Clonality:   | Monoclonal                                                    |
| Conjugate:   | This Tyrosine Hydroxylase antibody is conjugated to Sepharose |
| Application: | Immunoprecipitation (IP)                                      |

## Product Details

|          |        |
|----------|--------|
| Clone:   | TH-100 |
| Isotype: | IgG1   |

## Target Details

|                   |                                                                                                                                                                                                                        |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | Tyrosine Hydroxylase (TH)                                                                                                                                                                                              |
| Alternative Name: | Tyrosine hydroxylase ( <a href="#">TH Products</a> )                                                                                                                                                                   |
| Gene ID:          | 7054                                                                                                                                                                                                                   |
| Pathways:         | <a href="#">Dopaminergic Neurogenesis</a> , <a href="#">Response to Water Deprivation</a> , <a href="#">Sensory Perception of Sound</a> , <a href="#">Carbohydrate Homeostasis</a> , <a href="#">Feeding Behaviour</a> |

## Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

---

Storage: 4 °C
