Datasheet for ABIN1693658  
**anti-C9ORF173 antibody (AbBy Fluor® 350)**

### Overview

Quantity:	100 µL
Target:	C9ORF173
Reactivity:	Human, Mouse, Rat
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This C9ORF173 antibody is conjugated to AbBy Fluor® 350
Application:	Western Blotting (WB)

### Product Details

Immunogen:	KLH conjugated synthetic peptide derived from human C9orf173
Isotype:	IgG
Cross-Reactivity:	Mouse
Predicted Reactivity:	Human,Rat,Dog
Purification:	Purified by Protein A.

### Target Details

Target:	C9ORF173
Alternative Name:	C9orf173 ( <a href="#">C9ORF173 Products</a> )
Background:	Synonyms: C9orf173, Chromosome 9 open reading frame 173, C1173_HUMAN, Uncharacterized protein C9orf173.

## Target Details

---

Background: C9orf173 (chromosome 9 open reading frame 173) is a 389 amino acid protein that exists as four alternatively spliced isoforms. The gene encoding C9orf173 maps to human chromosome 9q34.3. Chromosome 9 consists of about 145 million bases, represents 4 % of the human genome and encodes nearly 900 genes. Thought to play a role in gender determination, deletion of the distal portion of 9p can lead to development of male to female sex reversal, the phenotype of a female with a male X,Y genotype. Hereditary hemorrhagic telangiectasia, which is characterized by harmful vascular defects, is associated with the chromosome 9 gene encoding endoglin protein, ENG. Familial dysautonomia is also associated with chromosome 9 though through the gene IKBKAP. Notably, chromosome 9 encompasses the largest interferon family gene cluster. Chromosome 9 is partnered with chromosome 22 in the translocation leading to the aberrant production of BCR-ABL fusion protein often found in leukemias.

---

Gene ID: 441476

## Application Details

---

Application Notes: IF(IHC-P) 1:50-200

Restrictions: For Research Use only

## Handling

---

Format: Liquid

Concentration: 1 µg/µL

Buffer: Aqueous buffered solution containing 0.01M TBS ( pH 7.4) with 1 % BSA, 0.03 % Proclin300 and 50 % Glycerol.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only.

Storage: -20 °C

Storage Comment: Store at -20°C. Aliquot into multiple vials to avoid repeated freeze-thaw cycles.

Expiry Date: 12 months
