# Datasheet for ABIN1713929 anti-DCAF7 antibody (AA 2-100)

Image

### Overview

| Quantity:            | 100 µL   |  |
|----------------------|--|--|
| Target:              | DCAF7  |  |
| Binding Specificity: | AA 2-100   |  |
| Reactivity:          | Mouse  |  |
| Host:                | Rabbit   |  |
| Clonality:           | Polyclonal   |  |
| Conjugate:           | This DCAF7 antibody is un-conjugated   |  |
| Application:         | Western Blotting (WB), ELISA, Immunofluorescence (Paraffin-embedded Sections) (IF (p)),<br>Immunofluorescence (Cultured Cells) (IF (cc)), Immunohistochemistry (Frozen Sections) (IHC<br>(fro)), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)), Immunocytochemistry<br>(ICC) |  |

## Product Details

| Immunogen:            | KLH conjugated synthetic peptide derived from human WDR68 |
|-----------------------|---|
| Isotype:              | lgG   |
| Cross-Reactivity:     | Mouse   |
| Predicted Reactivity: | Human,Rat,Horse   |
| Purification:         | Purified by Protein A.                                    |
| Target Details        |   |
| Target:               | DCAF7   |

| Target Details    |  |
|-------------------|--|
| Alternative Name: | WDR68 (DCAF7 Products)   |
| Background:       | Synonyms: AN11, Dcaf7, DCAF7_HUMAN, DDB1- and CUL4-associated factor 7, HAN11,<br>Human anthocyanin, Petunia, Seven WD repeat protein of the AN11 family 1, SWAN 1, WD<br>repeat domain 68, WD repeat protein An11 homolog, WD repeat-containing protein 68, WD<br>repeat-containing protein An11 homolog, WDR68.<br>Background: Involved in craniofacial development. Acts upstream of the EDN1 pathway and is<br>required for formation of the upper jaw equivalent, the palatoquadrate. The activity required for<br>EDN1 pathway function differs between the first and second arches (By similarity). Associates<br>with DIAPH1 and controls GLI1 transcriptional activity. Could be involved in normal and disease<br>skin development. May function as a substrate receptor for CUL4-DDB1 E3 ubiquitin-protein<br>ligase complex. |
| Pathways:         | SARS-CoV-2 Protein Interactome   |

## Application Details

| Application Notes: | WB 1:300-5000         |
|--------------------|-----------------------|
|                    | ELISA 1:500-1000      |
|                    | IHC-P 1:200-400       |
|                    | IHC-F 1:100-500       |
|                    | IF(IHC-P) 1:50-200    |
|                    | IF(IHC-F) 1:50-200    |
|                    | IF(ICC) 1:50-200      |
|                    | ICC 1:100-500         |
| Restrictions:      | For Research Use only |

### Handling

| Format:            | Liquid   |
|--------------------|--|
| Concentration:     | 1 µg/µL  |
| Buffer:            | 0.01M TBS( pH 7.4) with 1 % BSA, 0.02 % Proclin300 and 50 % Glycerol.  |
| Preservative:      | ProClin  |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only. |
| Storage:           | 4 °C,-20 °C  |

#### Western Blotting

**Image 1.** Mouse spleen lysates probed with WDR68 Polyclonal Antibody, Unconjugated at 1:300 dilution and 4°C overnight incubation. Followed by conjugated secondary antibody incubation at 1:10000 for 60 min at 37°C.
