Datasheet for ABIN1719977
Cathepsin B ELISA Kit

Overview

Quantity:	96 tests
Target:	Cathepsin B (CTSB)
Reactivity:	Human
Method Type:	Sandwich ELISA
Application:	ELISA

Product Details

Analytical Method:	Quantitative
Detection Method:	Colorimetric

Target Details

Target:	Cathepsin B (CTSB)
Alternative Name:	Cathepsin B (CTSB Products)
Pathways:	Activation of Innate immune Response, Toll-Like Receptors Cascades

Application Details

Plate:	Pre-coated
Restrictions:	For Research Use only

Handling

Storage:	4 °C/-20 °C
