

## Datasheet for ABIN1720077 **IGFBPI ELISA Kit**

[Go to Product page](#)

### Overview

Quantity:	96 tests
Target:	IGFBPI
Reactivity:	Human
Method Type:	Sandwich ELISA
Application:	ELISA

### Product Details

Analytical Method:	Quantitative
Detection Method:	Colorimetric

### Target Details

Target:	IGFBPI
Alternative Name:	<a href="#">IGFBP-1 (IGFBPI Products)</a>
Pathways:	<a href="#">Myometrial Relaxation and Contraction, ER-Nucleus Signaling, Growth Factor Binding</a>

### Application Details

Plate:	Pre-coated
Restrictions:	For Research Use only

### Handling

Storage:	4 °C/-20 °C
