

Datasheet for ABIN1720145
Prostate Specific Antigen ELISA Kit

[Go to Product page](#)

Overview

Quantity:	96 tests
Target:	Prostate Specific Antigen (PSA)
Reactivity:	Human
Method Type:	Sandwich ELISA
Application:	ELISA

Product Details

Analytical Method:	Quantitative
Detection Method:	Colorimetric

Target Details

Target:	Prostate Specific Antigen (PSA)
Alternative Name:	Kallikrein 3 / PSA (PSA Products)
Pathways:	Complement System

Application Details

Plate:	Pre-coated
Restrictions:	For Research Use only

Handling

Storage:	4 °C/-20 °C
