

Datasheet for ABIN1720573 **BMP2 ELISA Kit**

[Go to Product page](#)

Overview

Quantity:	96 tests
Target:	BMP2
Reactivity:	Rat
Method Type:	Sandwich ELISA
Application:	ELISA

Product Details

Analytical Method:	Quantitative
Detection Method:	Colorimetric

Target Details

Target:	BMP2
Alternative Name:	BMP-2 (BMP2 Products)
Pathways:	Regulation of Hormone Metabolic Process , Regulation of Hormone Biosynthetic Process , Regulation of Muscle Cell Differentiation , Growth Factor Binding , Positive Regulation of fat Cell Differentiation

Application Details

Plate:	Pre-coated
Restrictions:	For Research Use only

Handling

Storage: 4 °C/-20 °C
