Datasheet for ABIN1742502

anti-TPRG1L antibody

3 Images

2 Publications

Overview

Quantity:	50 µg
Target:	TPRG1L
Reactivity:	Mouse, Rat
Host:	Rabbit
Clonality:	Polyclonal
Application:	Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC)

Product Details

Immunogen:	Recombinant full length rat mover protein.
Specificity:	Specific for mover.
Purification:	Affinity purified with the immunogen. Rabbit serum albumin was added for stabilization.

Target Details

Target:	TPRG1L
Alternative Name:	Mover (TPRG1L Products)
Background:	Synonyms: TPRG1L

Application Details

Application Notes:	WB: 1 : 1000 IP: not tested yet ICC: 1 : 200 up to 1 : 500
--------------------	--

Application Details

IHC: 1 : 100

Restrictions: For Research Use only

Handling

Format: Lyophilized

Reconstitution: For reconstitution add 50 µL H₂O to get a 1mg/ml solution of antibody in PBS. Then aliquot and store at -20 °C until use.

Buffer: PBS

Handling Advice: Affinity purified antibodies are less robust than antisera, since protease inhibitors are also removed during purification. Hence, storage at 4 °C for prolonged periods (i.e. several weeks), is not recommended.

Storage: -20 °C

Storage Comment: Unlabeled lyophilized antibodies are stable in this form without loss of quality at ambient temperatures for several weeks or even months. They can be stored at 4°C for several years. Lyophilized antibodies must not be stored in the freezer, they may be destroyed!
