## Overview

|              |                                                  |
|--------------|--------------------------------------------------|
| Quantity:    | 150 µg                                           |
| Target:      | RBP4                                             |
| Reactivity:  | Mouse                                            |
| Host:        | Rabbit                                           |
| Clonality:   | Polyclonal                                       |
| Conjugate:   | This RBP4 antibody is conjugated to Biotin       |
| Application: | Enzyme Immunoassay (EIA), Radioimmunoassay (RIA) |

## Product Details

|                  |                                       |
|------------------|---------------------------------------|
| Immunogen:       | Mouse RBP4 expressed in E. coli.      |
| Isotype:         | IgG                                   |
| Characteristics: | Retinol Binding Protein 4, anti-mouse |
| Purification:    | Affinity Purified                     |

## Target Details

|                   |                                                                                                                                                                                                                             |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | RBP4                                                                                                                                                                                                                        |
| Alternative Name: | Retinol Binding Protein 4 ( <a href="#">RBP4 Products</a> )                                                                                                                                                                 |
| Pathways:         | <a href="#">Regulatory RNA Pathways</a> , <a href="#">Positive Regulation of Peptide Hormone Secretion</a> , <a href="#">Carbohydrate Homeostasis</a> , <a href="#">Production of Molecular Mediator of Immune Response</a> |

Application Details

Restrictions: For Research Use only

Handling

Buffer: PBS, 0.02 % Sodium Azide, pH7.5, 50 % Glycerol (v/v)

Preservative: Sodium azide

Precaution of Use: This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: -20 °C
