## Overview

|                      |                                        |
|----------------------|----------------------------------------|
| Quantity:            | 400 µL                                 |
| Target:              | COL20A1                                |
| Binding Specificity: | AA 1190-1218                           |
| Reactivity:          | Human                                  |
| Host:                | Rabbit                                 |
| Clonality:           | Polyclonal                             |
| Conjugate:           | This COL20A1 antibody is un-conjugated |
| Application:         | Western Blotting (WB)                  |

## Product Details

|               |                                                                                                                                                                              |
|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Specificity:  | This COL20A1 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 1190-1218 amino acids from the C-terminal region of human COL20A1. |
| Purification: | Protein A purified                                                                                                                                                           |

## Target Details

|                   |                                                                                                                                                     |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | COL20A1                                                                                                                                             |
| Alternative Name: | COL20A1 / Collagen XX ( <a href="#">COL20A1 Products</a> )                                                                                          |
| Background:       | Name/Gene ID: COL20A1<br><br>Synonyms: COL20A1, BA261N11.4, Collagen, type XX, alpha 1, Collagen-like protein, Collagen alpha-1(XX) chain, KIAA1510 |

## Target Details

Gene ID: 57642

UniProt: [Q9P218](#)

## Application Details

Application Notes: Approved: WB (1:1000)

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS, 0.09 % sodium azide

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C, -20 °C

Storage Comment: Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Expiry Date: 6 months
