## Overview

|                      |                                                                                                                                       |
|----------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| Quantity:            | 400 µL                                                                                                                                |
| Target:              | TSSK6                                                                                                                                 |
| Binding Specificity: | AA 198-228                                                                                                                            |
| Reactivity:          | Human                                                                                                                                 |
| Host:                | Rabbit                                                                                                                                |
| Clonality:           | Polyclonal                                                                                                                            |
| Conjugate:           | This TSSK6 antibody is un-conjugated                                                                                                  |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)), Flow Cytometry (FACS) |

## Product Details

|               |                                                                                                                                                                        |
|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Specificity:  | This TSSK6 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 198-228 amino acids from the C-terminal region of human TSSK6. |
| Purification: | Ammonium sulfate precipitation                                                                                                                                         |

## Target Details

|                   |                                                                  |
|-------------------|------------------------------------------------------------------|
| Target:           | TSSK6                                                            |
| Alternative Name: | TSSK6 ( <a href="#">TSSK6 Products</a> )                         |
| Background:       | Name/Gene ID: TSSK6<br>Subfamily: TSSK<br>Family: Protein Kinase |

## Target Details

Synonyms: TSSK6, FKSG82, Small serine/threonine kinase, Testis-specific kinase 6, SSTK, TSK-6, Cancer/testis antigen 72, CT72, TSSK-6

Gene ID: 83983

UniProt: [Q9BXA6](#)

## Application Details

Application Notes: Approved: Flo (1:10 - 1:50), IHC, IHC-P (1:10 - 1:50), WB (1:1000)

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS, 0.09 % sodium azide

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C, -20 °C

Storage Comment: Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Expiry Date: 6 months
