## Overview

|                      |                                        |
|----------------------|----------------------------------------|
| Quantity:            | 400 µL                                 |
| Target:              | PPP1R9B                                |
| Binding Specificity: | AA 24-53                               |
| Reactivity:          | Human                                  |
| Host:                | Rabbit                                 |
| Clonality:           | Polyclonal                             |
| Conjugate:           | This PPP1R9B antibody is un-conjugated |
| Application:         | Western Blotting (WB)                  |

## Product Details

|               |                                                                                                                                                                          |
|---------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Specificity:  | This PPP1R9B antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 24-53 amino acids from the N-terminal region of human PPP1R9B. |
| Purification: | Protein A purified                                                                                                                                                       |

## Target Details

|                   |                                                                                                                          |
|-------------------|--------------------------------------------------------------------------------------------------------------------------|
| Target:           | PPP1R9B                                                                                                                  |
| Alternative Name: | PPP1R9B / Spinophilin ( <a href="#">PPP1R9B Products</a> )                                                               |
| Background:       | Name/Gene ID: PPP1R9B<br><br>Synonyms: PPP1R9B, PPP1R9, Spinophilin, SPINO, Neurabin-2, Neurabin II, Neurabin-II, PPP1R6 |
| Gene ID:          | 84687                                                                                                                    |

## Target Details

UniProt: [Q96SB3](#)

Pathways: [Regulation of G-Protein Coupled Receptor Protein Signaling](#)

## Application Details

Application Notes: Approved: WB (1:1000)

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS, 0.09 % sodium azide

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C, -20 °C

Storage Comment: Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Expiry Date: 6 months
