### Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 400 µL                               |
| Target:              | KDM5B                                |
| Binding Specificity: | AA 192-224                           |
| Reactivity:          | Human, Mouse                         |
| Host:                | Rabbit                               |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This KDM5B antibody is un-conjugated |
| Application:         | Western Blotting (WB)                |

### Product Details

|               |                                                                                                                                                                            |
|---------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Specificity:  | This JARID1B antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 192-224 amino acids from the N-terminal region of human JARID1B. |
| Purification: | Protein A purified                                                                                                                                                         |

### Target Details

|                   |                                                                                                                                                                                                 |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | KDM5B                                                                                                                                                                                           |
| Alternative Name: | KDM5B / JARID1B ( <a href="#">KDM5B Products</a> )                                                                                                                                              |
| Background:       | Name/Gene ID: KDM5B<br><br>Synonyms: KDM5B, CT31, JARID1B, Histone demethylase JARID1B, RBBP2H1A, Lysine-specific demethylase 5B, PUT1, RBP2-H1, Cancer/testis antigen 31, PLU-1, PLU1, RBBP2H1 |

### Target Details

|           |                                |
|-----------|--------------------------------|
| Gene ID:  | 10765                          |
| UniProt:  | <a href="#">Q9UGL1</a>         |
| Pathways: | <a href="#">Warburg Effect</a> |

### Application Details

|                    |                                   |
|--------------------|-----------------------------------|
| Application Notes: | Approved: WB (1:1000)             |
| Comment:           | Target Species of Antibody: Human |
| Restrictions:      | For Research Use only             |

### Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | Lot specific                                                                                                           |
| Buffer:            | PBS, 0.09 % sodium azide                                                                                               |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | 4 °C,-20 °C                                                                                                            |
| Storage Comment:   | Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.                               |
| Expiry Date:       | 6 months                                                                                                               |
