## Overview

|                      |                                                                                                                                          |
|----------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| Quantity:            | 400 µL                                                                                                                                   |
| Target:              | KSR2                                                                                                                                     |
| Binding Specificity: | AA 603-638                                                                                                                               |
| Reactivity:          | Human                                                                                                                                    |
| Host:                | Rabbit                                                                                                                                   |
| Clonality:           | Polyclonal                                                                                                                               |
| Conjugate:           | This KSR2 antibody is un-conjugated                                                                                                      |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Flow Cytometry (FACS),<br>Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)) |

## Product Details

|               |                                                                                                                                                                      |
|---------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Specificity:  | This KSR2 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 603-638 amino acids from the C-terminal region of human KSR2. |
| Purification: | Protein A purified                                                                                                                                                   |

## Target Details

|                   |                                                                |
|-------------------|----------------------------------------------------------------|
| Target:           | KSR2                                                           |
| Alternative Name: | KSR2 ( <a href="#">KSR2 Products</a> )                         |
| Background:       | Name/Gene ID: KSR2<br>Subfamily: Raf<br>Family: Protein Kinase |

## Target Details

Synonyms: KSR2, Kinase suppressor of ras 2, HKSR2

Gene ID: 283455

UniProt: [Q6VAB6](#)

## Application Details

Application Notes: Approved: Flo (1:10 - 1:50), IHC, IHC-P (1:50 - 1:100), WB (1:1000)

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS, 0.09 % sodium azide

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C,-20 °C

Storage Comment: Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Expiry Date: 6 months
