## anti-Adrenomedullin 2 antibody (C-Term)

[Go to Product page](#)

### Overview

|                      |                                                 |
|----------------------|-------------------------------------------------|
| Quantity:            | 100 µL                                          |
| Target:              | Adrenomedullin 2 (ADM2)                         |
| Binding Specificity: | C-Term                                          |
| Reactivity:          | Human                                           |
| Host:                | Rabbit                                          |
| Clonality:           | Polyclonal                                      |
| Conjugate:           | This Adrenomedullin 2 antibody is un-conjugated |
| Application:         | ELISA, Immunohistochemistry (IHC)               |

### Product Details

|               |                                                                                         |
|---------------|-----------------------------------------------------------------------------------------|
| Immunogen:    | A peptide near the intermediate corresponding to the C terminus residues of human ADM2. |
|               | Type of Immunogen: Synthetic peptide                                                    |
| Specificity:  | Human ADM2 / Adrenomedullin 2.                                                          |
| Purification: | Affinity purified                                                                       |

### Target Details

|                   |                                                           |
|-------------------|-----------------------------------------------------------|
| Target:           | Adrenomedullin 2 (ADM2)                                   |
| Alternative Name: | ADM2 / Adrenomedullin 2 ( <a href="#">ADM2 Products</a> ) |
| Background:       | Name/Gene ID: ADM2                                        |

## Target Details

|           |                                                                      |
|-----------|----------------------------------------------------------------------|
|           | Synonyms: ADM2, AM2, DJ579N16.4, Adrenomedullin 2, Intermedin        |
| Gene ID:  | 79924                                                                |
| UniProt:  | <a href="#">Q7Z4H4</a>                                               |
| Pathways: | <a href="#">Hormone Activity</a> , <a href="#">Feeding Behaviour</a> |

## Application Details

|                    |                                                          |
|--------------------|----------------------------------------------------------|
| Application Notes: | Approved: ELISA (1:20000 - 1:80000), IHC (1:100 - 1:500) |
| Comment:           | Target Species of Antibody: Human                        |
| Restrictions:      | For Research Use only                                    |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | Lot specific                                                                                                           |
| Buffer:            | PBS, pH 7.4, 0.02 % sodium azide                                                                                       |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | Store at -20°C for up to 1 year.                                                                                       |
| Expiry Date:       | 12 months                                                                                                              |
