## Overview

|                      |                                         |
|----------------------|-----------------------------------------|
| Quantity:            | 200 µg                                  |
| Target:              | Resistin (RETN)                         |
| Binding Specificity: | AA 26-49                                |
| Reactivity:          | Mouse                                   |
| Host:                | Rabbit                                  |
| Clonality:           | Polyclonal                              |
| Conjugate:           | This Resistin antibody is un-conjugated |
| Application:         | ELISA                                   |

## Product Details

|               |                                                             |
|---------------|-------------------------------------------------------------|
| Immunogen:    | Synthetic peptide corresponding to aa26-49 of mouse FIZZ-3. |
|               | Type of Immunogen: Synthetic peptide                        |
| Isotype:      | IgG                                                         |
| Specificity:  | Mouse FIZZ-3.                                               |
| Purification: | Purified                                                    |

## Target Details

|                   |                                                   |
|-------------------|---------------------------------------------------|
| Target:           | Resistin (RETN)                                   |
| Alternative Name: | RETN / Resistin ( <a href="#">RETN Products</a> ) |

### Target Details

|             |                                                                                                                                          |
|-------------|------------------------------------------------------------------------------------------------------------------------------------------|
| Background: | Name/Gene ID: RETN<br><br>Synonyms: RETN, ADSF, Fizz3, Resistin, RETN1, Xcp1, RSTN, Found in inflammatory zone 3, HXCP1, Resistin delta2 |
| Gene ID:    | 56729                                                                                                                                    |
| UniProt:    | <a href="#">Q9HD89</a>                                                                                                                   |
| Pathways:   | <a href="#">Feeding Behaviour</a> , <a href="#">Smooth Muscle Cell Migration</a>                                                         |

### Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Comment:           | Target Species of Antibody: Mouse                                  |
| Restrictions:      | For Research Use only                                              |

### Handling

|                  |                                                                                                                                                                                  |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:          | Lyophilized                                                                                                                                                                      |
| Reconstitution:  | Sterile distilled water                                                                                                                                                          |
| Concentration:   | Lot specific                                                                                                                                                                     |
| Buffer:          | Lyophilized                                                                                                                                                                      |
| Handling Advice: | Aliquot to avoid repeated freezing and thawing.                                                                                                                                  |
| Storage:         | -20 °C                                                                                                                                                                           |
| Storage Comment: | Lyophilized powder may be stored at -20°C. Stable for 1 year at -20°C. Aliquot to avoid freeze-thaw cycles. Store at -20°C. Reconstituted product is stable for 1 year at -20°C. |
