

Datasheet for ABIN1832639

anti-Phosphotransacetylase antibody (Biotin)

[Go to Product page](#)

Overview

Quantity:	1 mL
Target:	Phosphotransacetylase
Reactivity:	Clostridium kluyveri
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This Phosphotransacetylase antibody is conjugated to Biotin
Application:	ELISA, Western Blotting (WB), Immunodiffusion (ID), Immunoelectrophoresis (IEP)

Product Details

Immunogen:	Phosphotransacetylase is isolated and purified from Clostridium kluyveri. Immunogen type: Purified protein
Isotype:	IgG
Specificity:	Phosphotransacetylase.
Purification:	Ion exchange chromatography

Target Details

Target:	Phosphotransacetylase
Abstract:	Phosphotransacetylase Products

Application Details

Application Notes:	ELISA, ID, IE, WB
Restrictions:	For Research Use only

Handling

Format:	Lyophilized
Reconstitution:	Sterile distilled water
Buffer:	Lyophilized from PBS, pH 7
Handling Advice:	Aliquot to avoid repeated freezing and thawing.
Storage:	-20 °C
Expiry Date:	12 months
