## Overview

|                      |                                                                                                                |
|----------------------|----------------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                                         |
| Target:              | TACC2                                                                                                          |
| Binding Specificity: | AA 237-293                                                                                                     |
| Reactivity:          | Human, Mouse, Rat                                                                                              |
| Host:                | Rabbit                                                                                                         |
| Clonality:           | Polyclonal                                                                                                     |
| Conjugate:           | This TACC2 antibody is un-conjugated                                                                           |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)) |

## Product Details

|               |                                                                                                                                                                                                                            |
|---------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:    | Synthetic peptide contain a sequence corresponding to a region within amino acids 237 and 293 (O95359) of TACC2. Percent identity by BLAST analysis: Human, Mouse, Rat (100%).<br><br>Type of Immunogen: Synthetic peptide |
| Isotype:      | IgG                                                                                                                                                                                                                        |
| Specificity:  | Human TACC2                                                                                                                                                                                                                |
| Purification: | Immunoaffinity purified                                                                                                                                                                                                    |

## Target Details

|         |       |
|---------|-------|
| Target: | TACC2 |
|---------|-------|

## Target Details

|                   |                                                                                     |
|-------------------|-------------------------------------------------------------------------------------|
| Alternative Name: | TACC2 ( <a href="#">TACC2 Products</a> )                                            |
| Background:       | Name/Gene ID: TACC2<br><br>Synonyms: TACC2, Anti-Zuai-1, AZU-1, ECTACC, Anti zuai-1 |
| Gene ID:          | 10579                                                                               |
| UniProt:          | <a href="#">O95359</a>                                                              |

## Application Details

|                    |                                                                                                                                                                                                      |
|--------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | Approved: IHC, IHC-P (1:100 - 1:1000), WB (1:500 - 1:3000)<br><br>Usage: IHC-paraffin: Suggested antigen retrieval using heat mediated 10 mM Citrate buffer ( pH 6.0) or Tris-EDTA buffer ( pH 8.0). |
| Comment:           | Target Species of Antibody: Human                                                                                                                                                                    |
| Restrictions:      | For Research Use only                                                                                                                                                                                |

## Handling

|                    |                                                                                                                                    |
|--------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                             |
| Concentration:     | Lot specific                                                                                                                       |
| Buffer:            | 0.1 M Tris-glycine, pH 7.0, 10 % glycerol, 0.01 % Thimerosal                                                                       |
| Preservative:      | Thimerosal (Merthiolate)                                                                                                           |
| Precaution of Use: | This product contains Thimerosal (Merthiolate): a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Handling Advice:   | Keep as concentrated solution. Avoid multiple freeze-thaw cycles.                                                                  |
| Storage:           | -20 °C                                                                                                                             |
| Storage Comment:   | Keep as concentrated solution. Aliquot and store at -20°C or below. Avoid multiple freeze-thaw cycles.                             |
