## Overview

|                      |                                     |
|----------------------|-------------------------------------|
| Quantity:            | 400 µL                              |
| Target:              | ICMT                                |
| Binding Specificity: | AA 250-284                          |
| Reactivity:          | Human                               |
| Host:                | Rabbit                              |
| Clonality:           | Polyclonal                          |
| Conjugate:           | This ICMT antibody is un-conjugated |
| Application:         | Western Blotting (WB)               |

## Product Details

|               |                                                                                                                                                                      |
|---------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Specificity:  | This ICMT antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 250-284 amino acids from the C-terminal region of human ICMT. |
| Purification: | Ammonium sulfate precipitation                                                                                                                                       |

## Target Details

|                   |                                                                                      |
|-------------------|--------------------------------------------------------------------------------------|
| Target:           | ICMT                                                                                 |
| Alternative Name: | ICMT / PPMT ( <a href="#">ICMT Products</a> )                                        |
| Background:       | Name/Gene ID: ICMT<br><br>Synonyms: ICMT, MSTP098, HSTE14, PPMT, MST098, PCCMT, PCMT |
| Gene ID:          | 23463                                                                                |

## Target Details

UniProt: [O60725](#)

## Application Details

Application Notes: Approved: WB (1:1000)

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS, 0.09 % sodium azide

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C,-20 °C

Storage Comment: Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Expiry Date: 6 months
