Alternative Name:

Background:

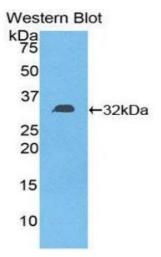

ability to recognize DGKe in immunohistochemical staining and western blotting. Purification: Antigen-specific affinity chromatography		
Binding Specificity: AA 243-502 Reactivity: Human Host: Rabbit Clonality: Polyclonal Conjugate: This DGKE antibody is un-conjugated Application: Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC) Product Details Immunogen: DGKe (Leu243-Gly502) Isotype: IgG Specificity: The antibody is a rabbit polyclonal antibody raised against DGKe. It has been selected for ability to recognize DGKe in immunohistochemical staining and western blotting. Purification: Antigen-specific affinity chromatography	Quantity:	100 μL
Reactivity: Human Host: Rabbit Clonality: Polyclonal Conjugate: This DGKE antibody is un-conjugated Application: Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC) Product Details Immunogen: DGKe (Leu243-Gly502) Isotype: IgG Specificity: The antibody is a rabbit polyclonal antibody raised against DGKe. It has been selected for ability to recognize DGKe in immunohistochemical staining and western blotting. Purification: Antigen-specific affinity chromatography	Target:	DGKE
Host: Rabbit Clonality: Polyclonal Conjugate: This DGKE antibody is un-conjugated Application: Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC) Product Details Immunogen: DGKe (Leu243-Gly502) Isotype: IgG Specificity: The antibody is a rabbit polyclonal antibody raised against DGKe. It has been selected for ability to recognize DGKe in immunohistochemical staining and western blotting. Purification: Antigen-specific affinity chromatography	Binding Specificity:	AA 243-502
Clonality: Polyclonal Conjugate: This DGKE antibody is un-conjugated Application: Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC) Product Details Immunogen: DGKe (Leu243-Gly502) Isotype: IgG Specificity: The antibody is a rabbit polyclonal antibody raised against DGKe. It has been selected for ability to recognize DGKe in immunohistochemical staining and western blotting. Purification: Antigen-specific affinity chromatography	Reactivity:	Human
Conjugate: This DGKE antibody is un-conjugated Application: Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC) Product Details Immunogen: DGKe (Leu243-Gly502) Isotype: IgG Specificity: The antibody is a rabbit polyclonal antibody raised against DGKe. It has been selected for ability to recognize DGKe in immunohistochemical staining and western blotting. Purification: Antigen-specific affinity chromatography	Host:	Rabbit
Application: Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC) Product Details Immunogen: DGKe (Leu243-Gly502) Isotype: IgG Specificity: The antibody is a rabbit polyclonal antibody raised against DGKe. It has been selected for ability to recognize DGKe in immunohistochemical staining and western blotting. Purification: Antigen-specific affinity chromatography	Clonality:	Polyclonal
Product Details Immunogen: DGKe (Leu243-Gly502) Isotype: IgG Specificity: The antibody is a rabbit polyclonal antibody raised against DGKe. It has been selected for ability to recognize DGKe in immunohistochemical staining and western blotting. Purification: Antigen-specific affinity chromatography	Conjugate:	This DGKE antibody is un-conjugated
Immunogen: DGKe (Leu243-Gly502) Isotype: IgG Specificity: The antibody is a rabbit polyclonal antibody raised against DGKe. It has been selected for ability to recognize DGKe in immunohistochemical staining and western blotting. Purification: Antigen-specific affinity chromatography	Application:	Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC)
Isotype: IgG Specificity: The antibody is a rabbit polyclonal antibody raised against DGKe. It has been selected for ability to recognize DGKe in immunohistochemical staining and western blotting. Purification: Antigen-specific affinity chromatography	Product Details	
Specificity: The antibody is a rabbit polyclonal antibody raised against DGKe. It has been selected for ability to recognize DGKe in immunohistochemical staining and western blotting. Purification: Antigen-specific affinity chromatography	Immunogen:	DGKe (Leu243-Gly502)
ability to recognize DGKe in immunohistochemical staining and western blotting. Purification: Antigen-specific affinity chromatography	Isotype:	IgG
	Specificity:	The antibody is a rabbit polyclonal antibody raised against DGKe. It has been selected for its ability to recognize DGKe in immunohistochemical staining and western blotting.
Target Details	Purification:	Antigen-specific affinity chromatography
	Target Details	
	Target:	DGKE

Diacylglycerol Kinase Epsilon (DGKe) (DGKE Products)

Alternative Names: DAGK5, DGK, Diglyceride kinase epsilon

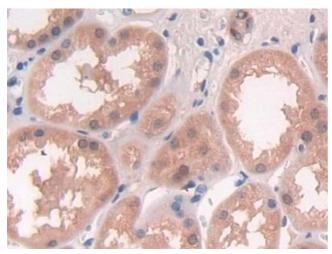

Application Details

10 10 10 10 10 10 10 10 10 10 10 10 10 1	
Application Notes:	Western blotting: 1:50-400 Immunocytochemistry in formalin fixed cells: 1:50-500 Immunohistochemistry in formalin fixed frozen section: 1:50-500 Immunohistochemistry in paraffin section: 1:10-100 Enzyme-linked Immunosorbent Assay: 1:100-1:5000 Optimal working dilutions must be determined by end user.
Comment:	The thermal stability is described by the loss rate. The loss rate was determined by accelerated
	thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious
	degradation and precipitation were observed. The loss rate is less than 5% within the expiration
	date under appropriate storage condition.
Restrictions:	For Research Use only
Handling	
Format:	Liquid
Concentration:	Lot specific
Buffer:	PBS, pH 7.4, containing 0.02 % Sodium azide, 50 % glycerol.
Preservative:	Sodium azide
Precaution of Use:	WARNING: Reagents contain sodium azide. Sodium azide is very toxic if ingested or inhaled. Avoid contact with skin, eyes, or clothing. Wear eye or face protection when handling. If skin or
	eye contact occurs, wash with copious amounts of water. If ingested or inhaled, contact a
	physician immediately. Sodium azide yields toxic hydrazoic acid under acidic conditions. Dilute
	azide-containing compounds in running water before discarding to avoid accumulation of
	potentially explosive deposits in lead or copper plumbing.
Handling Advice:	Avoid repeated freeze-thaw cycles.
Storage:	4 °C
Storage Comment:	Store at 2-8 °C for one month. Aliquot and store at -80 °C for 12 months.
Expiry Date:	12 months

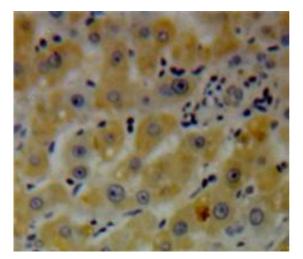

Western Blotting
