Go to Product page

Overview

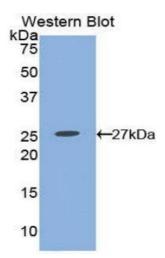

Quantity:	100 μL
Target:	PTGER2
Binding Specificity:	AA 155-355
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This PTGER2 antibody is un-conjugated
Application:	Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC), Immunoprecipitation (IP)

Product Details

Purpose:	Polyclonal Antibody to Prostaglandin E Receptor 2 (EP2)
Immunogen:	RPA247Hu01Recombinant Prostaglandin E Receptor 2 (EP2)
Isotype:	IgG
Specificity:	The antibody is a rabbit polyclonal antibody raised against EP2. It has been selected for its ability to recognize EP2 in immunohistochemical staining and western blotting.
Cross-Reactivity:	Mouse
Purification:	Antigen-specific affinity chromatography followed by Protein A affinity chromatography

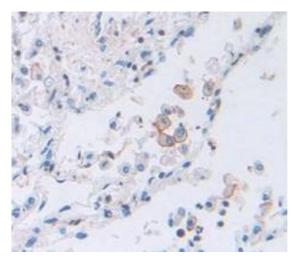

Target Details

DTCED2
PTGER2
Prostaglandin E Receptor 2 (PTGER2 Products)
PTGER2, Prostaglandin E2 Receptor(Subtype EP2),53kD
Western blotting: 0.5-2 μg/mL,Immunohistochemistry: 5-20 μg/mL,Immunocytochemistry: 5-
20 μg/mL,Optimal working dilutions must be determined by end user.
The thermal stability is described by the loss rate. The loss rate was determined by accelerated
thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious
degradation and precipitation were observed. The loss rate is less than 5% within the expiration
date under appropriate storage condition.
For Research Use only
Liquid
500 μg/mL
0.01M PBS, pH 7.4, containing 0.05 % Proclin-300, 50 % glycerol.
ProClin
WARNING: Reagents contain sodium azide. Sodium azide is very toxic if ingested or inhaled.
Avoid contact with skin, eyes, or clothing. Wear eye or face protection when handling. If skin or
eye contact occurs, wash with copious amounts of water. If ingested or inhaled, contact a
physician immediately. Sodium azide yields toxic hydrazoic acid under acidic conditions. Dilute
azide-containing compounds in running water before discarding to avoid accumulation of
potentially explosive deposits in lead or copper plumbing.
Avoid repeated freeze-thaw cycles.
4 °C,-20 °C
Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without
detectable loss of activity. Avoid repeated freeze-thaw cycles.
12 months
