## Datasheet for ABIN1859418 anti-IL-31 antibody (AA 134-262)

Image

Overview

1

| Quantity:            | 100 µL                                                                       |  |
|----------------------|------------------------------------------------------------------------------|--|
| Target:              | IL-31 (IL31)                                                                 |  |
| Binding Specificity: | AA 134-262                                                                   |  |
| Reactivity:          | Rat                                                                          |  |
| Host:                | Rabbit                                                                       |  |
| Clonality:           | Polyclonal                                                                   |  |
| Conjugate:           | This IL-31 antibody is un-conjugated                                         |  |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC) |  |

## Product Details

| Immunogen:     | IL31 linked with CRLDSSTTTT TTTTN(Cys134-Glu262+CRLDSSTTTTTTTN)                                                                                                                |  |
|----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| Isotype:       | lgG                                                                                                                                                                            |  |
| Specificity:   | The antibody is a rabbit polyclonal antibody raised against IL31. It has been selected for its ability to recognize IL31 in immunohistochemical staining and western blotting. |  |
| Purification:  | Antigen-specific affinity chromatography                                                                                                                                       |  |
| Target Details |                                                                                                                                                                                |  |
| Target:        | IL-31 (IL31)                                                                                                                                                                   |  |
| Abstract:      | IL31 Products                                                                                                                                                                  |  |

| Comment:            | The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37&degC for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.                                                                                                                                                                                                                  |  |
| Restrictions:       | For Research Use only                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |  |
| Handling            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |
| Format:             | Liquid                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |  |
| Concentration:      | Lot specific                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |
| Buffer:             | PBS, pH 7.4, containing 0.02 % Sodium azide, 50 % glycerol.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |  |
| Preservative:       | Sodium azide                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |
| Precaution of Use:  | WARNING: Reagents contain sodium azide. Sodium azide is very toxic if ingested or inhaled.<br>Avoid contact with skin, eyes, or clothing. Wear eye or face protection when handling. If skin or<br>eye contact occurs, wash with copious amounts of water. If ingested or inhaled, contact a<br>physician immediately. Sodium azide yields toxic hydrazoic acid under acidic conditions. Dilute<br>azide-containing compounds in running water before discarding to avoid accumulation of<br>potentially explosive deposits in lead or copper plumbing. |  |
| Handling Advice:    | Avoid repeated freeze-thaw cycles.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |  |
| Storage:            | 4 °C                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |  |
| Storage Comment:    | Store at 2-8 °C for one month. Aliquot and store at -80 °C for 12 months.                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |  |
| Expiry Date:        | 12 months                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |  |
