Datasheet for ABIN1859614

anti-LAP antibody (AA 320-519)

Go	to	Prod	luct	page
00			uot	page

Overview

Overview		
Quantity:	100 μL	
Target:	LAP	
Binding Specificity:	AA 320-519	
Reactivity:	Human	
Host:	Rabbit	
Clonality:	Polyclonal	
Conjugate:	This LAP antibody is un-conjugated	
Application:	Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC)	
Product Details		
Immunogen:	LAP (Ala320-Ala519)	
Isotype:	IgG	
Specificity:	The antibody is a rabbit polyclonal antibody raised against LAP. It has been selected for its ability to recognize LAP in immunohistochemical staining and western blotting.	
Purification:	Antigen-specific affinity chromatography	
Target Details		
Target:	LAP	
Abstract:	LAP Products	
	Alternative Names: LAPEP, LAP3, PEPS, Peptidase S, Leucyl Aminopeptidase, Cytosol	

anainanantidaaa	Droling	anainana	ntidooo	Drah	l anain an antidaca
arrinopeptidase,	Proline	arrimope	puuase	, Proiy	'l aminopeptidase

Application Details

Western blotting: 1:50-400 Immunocytochemistry in formalin fixed cells: 1:50-500 Immunohistochemistry in formalin fixed frozen section: 1:50-500 Immunohistochemistry in paraffin section: 1:10-100 Enzyme-linked Immunosorbent Assay: 1:100-1:5000 Optimal working dilutions must be determined by end user. Comment: The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious

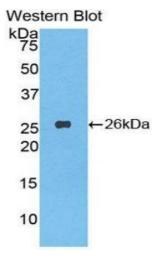

date under appropriate storage condition.

degradation and precipitation were observed. The loss rate is less than 5% within the expiration

Restrictions: For Research Use only

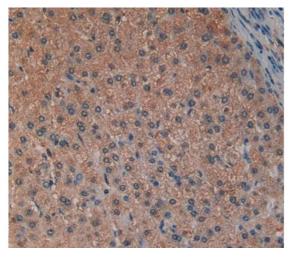

Handling

Format:	Liquid		
Concentration:	Lot specific		
Buffer:	PBS, pH 7.4, containing 0.02 % Sodium azide, 50 % glycerol.		
Preservative:	Sodium azide		
Precaution of Use:	WARNING: Reagents contain sodium azide. Sodium azide is very toxic if ingested or inhaled. Avoid contact with skin, eyes, or clothing. Wear eye or face protection when handling. If skin or eye contact occurs, wash with copious amounts of water. If ingested or inhaled, contact a physician immediately. Sodium azide yields toxic hydrazoic acid under acidic conditions. Dilute azide-containing compounds in running water before discarding to avoid accumulation of potentially explosive deposits in lead or copper plumbing.		
Handling Advice:	Avoid repeated freeze-thaw cycles.		
Storage:	4 °C		
Storage Comment:	Store at 2-8 °C for one month. Aliquot and store at -80 °C for 12 months.		
Expiry Date:	12 months
