()	ve.	rv/	101	Λ

Quantity:	100 μL	
Target:	TCL1A	
Binding Specificity:	AA 6-112	
Reactivity:	Rat	
Host:	Rabbit	
Clonality:	Polyclonal	
Conjugate:	This TCL1A antibody is un-conjugated	
Application:	Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC), Immunoprecipitation (IP)	

### **Product Details**

Purpose:	Polyclonal Antibody to T-Cell Leukemia/Lymphoma Protein 1A (TCL1A)	
Immunogen:	TCL1A (AA 6-112)	
Sequence:	MGSSHHHHHH SSGLVPRGSH MASMTGGQQM GRGSEF- AYRPE TPPHPDRLWL WEKHVYLDEF RRSWLPIVIK SNGKFQVIMR QKDVILGDSM TPSQLVPYEL PLMWQLYPEE RYRSSNSEFW QIVYHIKFKD DEDMLLELLD SE	
Isotype:	IgG	
Specificity:	The antibody is a rabbit polyclonal antibody raised against TCL1A. It has been selected for its ability to recognize TCL1A in immunohistochemical staining and western blotting.	
Purification:	Antigen-specific affinity chromatography followed by Protein A affinity chromatography	

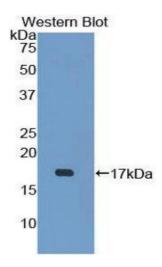

# **Target Details**

Target:	TCL1A	
Alternative Name:	TCL1A (TCL1A Products)	
Background:	Tgtp, TCL1A, TCL1, T-Cell Specific GTPase, Oncogene TCL1, Protein p14 TCL1	
Pathways:	Stem Cell Maintenance	
Application Details		
Application Notes:	Western blotting: 0.2-2 μg/mL,1:250-2500 Immunohistochemistry: 5-20 μg/mL,1:25-100 Immunocytochemistry: 5-20 μg/mL,1:25-100 Optimal working dilutions must be determined by end user.	
Comment:	The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.	
Restrictions:	For Research Use only	
Handling		
Format:	Liquid	
Concentration:	500 μg/mL	
Buffer:	PBS, pH 7.4, containing 0.02 % Sodium azide, 50 % glycerol.	
Preservative:	Sodium azide	
Precaution of Use:	WARNING: Reagents contain sodium azide. Sodium azide is very toxic if ingested or inhaled. Avoid contact with skin, eyes, or clothing. Wear eye or face protection when handling. If skin or eye contact occurs, wash with copious amounts of water. If ingested or inhaled, contact a physician immediately. Sodium azide yields toxic hydrazoic acid under acidic conditions. Dilute azide-containing compounds in running water before discarding to avoid accumulation of potentially explosive deposits in lead or copper plumbing.	
Handling Advice:	Avoid repeated freeze/thaw cycles	
Storage:	4 °C,-20 °C	
Storage Comment:	Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without detectable loss of activity. Avoid repeated freeze-thaw cycles.	

Expiry Date:

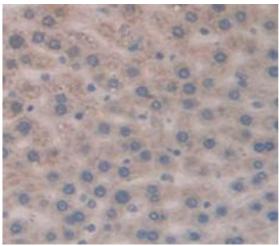

12 months
