anti-C4A antibody (AA 678-761)

**Images** 

### Overview

Quantity:	100 μL
Target:	C4A (C4a)
Binding Specificity:	AA 678-761
Reactivity:	Mouse
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This C4A antibody is un-conjugated
Application:	Western Blotting (WB), Immunohistochemistry (IHC), Immunoprecipitation (IP), Immunocytochemistry (ICC)

# **Product Details**

Purpose:	Polyclonal Antibody to Complement Component 4a (C4a)
Immunogen:	Recombinant Complement Component 4a (C4a)
Isotype:	IgG
Specificity:	The antibody is a rabbit polyclonal antibody raised against C4a. It has been selected for its ability to recognize C4a in immunohistochemical staining and western blotting.
Cross-Reactivity:	Rat
Purification:	Antigen-specific affinity chromatography followed by Protein A affinity chromatography

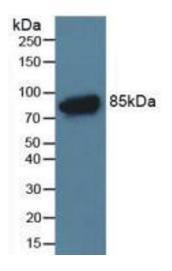

# **Target Details**

Alternative Name: Complement Component 4a (C4a Products)	
Background: C4a anaphylatoxin	
Pathways: Complement System	
Application Details	
Application Notes: Western blotting: 0.5-3 μg/mL	
Immunohistochemistry: 5-30 μg/mL	
Immunocytochemistry: 5-30 μg/mL	
Optimal working dilutions must be determined by end	user.
Comment: The thermal stability is described by the loss rate. The	loss rate was determined by accelerated
thermal degradation test, that is, incubate the protein a	at 37°C for 48h, and no obvious
degradation and precipitation were observed. The loss	rate is less than 5% within the expiration
date under appropriate storage condition.	
Restrictions: For Research Use only	
Handling
