_				
()	ve.	rv/	101	Λ

Quantity:	100 μL
Target:	CD40 Ligand (CD40LG)
Binding Specificity:	AA 50-243
Reactivity:	Mouse
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This CD40 Ligand antibody is un-conjugated
Application:	Western Blotting (WB), Immunohistochemistry (IHC), Immunoprecipitation (IP), Immunocytochemistry (ICC)
Product Details	
Product Details Purpose:	Polyclonal Antibody to Cluster Of Differentiation 40 Ligand (CD40L)
	Polyclonal Antibody to Cluster Of Differentiation 40 Ligand (CD40L) RPA119Mu02Recombinant Cluster Of Differentiation 40 Ligand (CD40L)
Purpose:	
Purpose: Immunogen:	RPA119Mu02Recombinant Cluster Of Differentiation 40 Ligand (CD40L)
Purpose: Immunogen: Isotype:	RPA119Mu02Recombinant Cluster Of Differentiation 40 Ligand (CD40L) IgG The antibody is a rabbit polyclonal antibody raised against CD40L. It has been selected for its
Purpose: Immunogen: Isotype: Specificity:	RPA119Mu02Recombinant Cluster Of Differentiation 40 Ligand (CD40L) IgG The antibody is a rabbit polyclonal antibody raised against CD40L. It has been selected for its ability to recognize CD40L in immunohistochemical staining and western blotting.

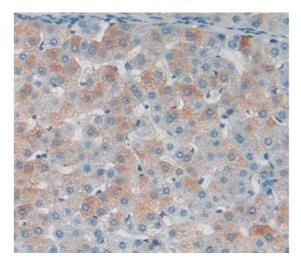

Target Details

Alternative Name:	CD40L (CD40LG Products)	
Background:	CD154, TRAP, HIGM1, IGM, IMD3, TBAM, T-BAM, TNFSF5, Gp39, TNF Superfamily Member 5, Hyper-IgM Syndrome, TNF-Related Activation Protein, T-Cell B-Cell Activating Molecule	
Pathways:	NF-kappaB Signaling, Production of Molecular Mediator of Immune Response, Cancer Immun Checkpoints	
Application Details		
Application Notes:	Western blotting: 0.01-2 μg/mL,Immunohistochemistry: 5-20 μg/mL,Immunocytochemistry: 5-20 μg/mL,Optimal working dilutions must be determined by end user.	
Comment:	The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.	
Restrictions:	For Research Use only	
Handling		
Format:	Liquid	
Concentration:	0.5 mg/mL	
Buffer:	PBS, pH 7.4, containing 0.02 % Sodium azide, 50 % glycerol.	
Preservative:	Sodium azide	
Precaution of Use:	WARNING: Reagents contain sodium azide. Sodium azide is very toxic if ingested or inhaled. Avoid contact with skin, eyes, or clothing. Wear eye or face protection when handling. If skin or eye contact occurs, wash with copious amounts of water. If ingested or inhaled, contact a physician immediately. Sodium azide yields toxic hydrazoic acid under acidic conditions. Dilute azide-containing compounds in running water before discarding to avoid accumulation of potentially explosive deposits in lead or copper plumbing.	
Handling Advice:	Avoid repeated freeze-thaw cycles.	
Storage:	4 °C,-20 °C	
Storage Comment:	Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without detectable loss of activity. Avoid repeated freeze-thaw cycles.	
Expiry Date:	12 months	

Western Blotting
