Background:

| Quantity:            | 100 μL   |
|----------------------|--|
| Target:              | ALDH3A1  |
| Binding Specificity: | AA 1-311   |
| Reactivity:          | Human  |
| Host:                | Rabbit   |
| Clonality:           | Polyclonal   |
| Conjugate:           | This ALDH3A1 antibody is un-conjugated   |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC)   |
| Product Details      |  |
| Immunogen:           | ALDH3A1 (Met1-Val311)  |
| Isotype:             | IgG  |
| Specificity:         | The antibody is a rabbit polyclonal antibody raised against ALDH3A1. It has been selected for its ability to recognize ALDH3A1 in immunohistochemical staining and western blotting. |
| Purification:        | Antigen-specific affinity chromatography   |
| Target Details       |  |
| Target:              | ALDH3A1  |
| Alternative Name:    | Aldehyde Dehydrogenase 3 Family, Member A1 (ALDH3A1 Products)  |
|                      |  |

Alternative Names: ALDH3, ALDHIII, Aldehyde Dehydrogenase, Dimeric NADP-Preferring,

#### Aldehyde dehydrogenase 3

### **Application Details**

| Application Notes: | Western blotting: 1:50-400 Immunocytochemistry in formalin fixed cells: 1:50-500        |
|--------------------|---|
|                    | Immunohistochemistry in formalin fixed frozen section: 1:50-500 Immunohistochemistry in |
|                    | paraffin section: 1:10-100 Enzyme-linked Immunosorbent Assay: 1:100-1:5000 Optimal      |
|                    | working dilutions must be determined by end user.                                       |
|                    |   |

The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37&degC for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.

Restrictions: For Research Use only

#### Handling

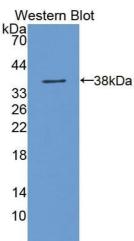

Comment:

| Format:            | Liquid  |
|--------------------|---|
| Concentration:     | Lot specific  |
| Buffer:            | PBS, pH 7.4, containing 0.02 % Sodium azide, 50 % glycerol.                                       |
| Preservative:      | Sodium azide  |
| Precaution of Use: | WARNING: Reagents contain sodium azide. Sodium azide is very toxic if ingested or inhaled.        |
|                    | Avoid contact with skin, eyes, or clothing. Wear eye or face protection when handling. If skin or |
|                    | eye contact occurs, wash with copious amounts of water. If ingested or inhaled, contact a         |
|                    | physician immediately. Sodium azide yields toxic hydrazoic acid under acidic conditions. Dilute   |
|                    | azide-containing compounds in running water before discarding to avoid accumulation of            |
|                    | potentially explosive deposits in lead or copper plumbing.  |
| Handling Advice:   | Avoid repeated freeze-thaw cycles.  |
| Storage:           | 4 °C  |
| Storage Comment:   | Store at 2-8 °C for one month. Aliquot and store at -80 °C for 12 months.                         |
| Expiry Date:       | 12 months   |
