# **THFA Protein (BSA)**

#### Overview

| Quantity:                     | 200 μg   |
|-------------------------------|--|
| Target:                       | THFA   |
| Origin:                       | Chemical   |
| Source:                       | Synthetic  |
| Purification tag / Conjugate: | This THFA protein is labelled with BSA.                                |
| Application:                  | Immunoprecipitation (IP), SDS-PAGE (SDS), ELISA, Western Blotting (WB) |
| Product Details               |  |
| Purity:                       | > 95 %   |
|                               |  |

## **Target Details**

| Target:     | THFA          |
|-------------|---------------|
| Abstract:   | THFA Products |
| Target Type | Chemical      |

## **Application Details**

| Comment: | The thermal stability is described by the loss rate of the target protein. The loss rate was    |
|----------|---|
|          | determined by accelerated thermal degradation test, that is, incubate the protein at 37 °C for  |
|          | 48h, and no obvious degradation and precipitation were observed. (Referring from China          |
|          | Biological Products Standard, which was calculated by the Arrhenius equation.) The loss of this |
|          | protein is less than 5% within the expiration date under appropriate storage condition.         |
|          |   |

## **Application Details**

| Restrictions:    | For Research Use only   |  |
|------------------|---|--|
| Handling         |   |  |
| Reconstitution:  | Reconstitute in sterile PBS, pH 7.2 - pH 7.4.                             |  |
| Handling Advice: | Avoid repeated freeze/thaw cycles   |  |
| Storage:         | 4 °C  |  |
| Storage Comment: | Store at 2-8 °C for one month. Aliquot and store at -80 °C for 12 months. |  |
| Expiry Date:     | 12 months   |  |
