AnaTag™ Biotin Microscale Protein Labeling Kit

[Go to Product page](#)

Overview

Quantity:	1 kit
Target:	Biotin
Conjugate:	Biotin
Application:	Labeling (Lbl)

Product Details

Detection Method:	Fluorometric
-------------------	--------------

Target Details

Target:	Biotin
Abstract:	Biotin Products
Target Type:	Chemical
Background:	Biotin-X, SE is amino-reactive biotinylating reagent for peptides and proteins , it has a better avidin-binding affinity than biotin.

Application Details

Comment:	Labeling kit
Restrictions:	For Research Use only

Handling

Storage:	4 °C
