AnaTag™ R - PE Labeling Kit

[Go to Product page](#)

Overview

Quantity:	1 kit
Target:	R-Phycoerythrin
Conjugate:	PE
Application:	Labeling (LbI)

Product Details

Detection Method:	Fluorometric
Characteristics:	The AnaTag™ R-PE Labeling Kit is optimized for use in the conjugation of R-Phycoerythrin (R-PE) to antibodies.

Target Details

Target:	R-Phycoerythrin
Target Type:	Chemical

Application Details

Comment:	Labeling kit
Restrictions:	For Research Use only

Handling

Handling Advice:	Keep the Component A away from light, do not freeze.
Storage:	4 °C

Handling

Storage Comment: Store all kit components at 4 °C. Components B and H may be frozen for best performance.
