

Datasheet for ABIN1893802

**anti-ERF antibody (AA 485-514) (FITC)**[Go to Product page](#)

## Overview

|                      |                                         |
|----------------------|-----------------------------------------|
| Quantity:            | 200 µL                                  |
| Target:              | ERF                                     |
| Binding Specificity: | AA 485-514                              |
| Reactivity:          | Human                                   |
| Host:                | Rabbit                                  |
| Clonality:           | Polyclonal                              |
| Conjugate:           | This ERF antibody is conjugated to FITC |
| Application:         | Western Blotting (WB), ELISA            |

## Product Details

|               |                                                                                                                                                                    |
|---------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Isotype:      | IgG                                                                                                                                                                |
| Specificity:  | This ERF antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 485-514 amino acids from the C-terminal region of human ERF. |
| Purification: | Protein A purified                                                                                                                                                 |

## Target Details

|                   |                                                                          |
|-------------------|--------------------------------------------------------------------------|
| Target:           | ERF                                                                      |
| Alternative Name: | ERF / PE2 ( <a href="#">ERF Products</a> )                               |
| Background:       | Name/Gene ID: ERF<br><br>Synonyms: ERF, PE-2, Ets2 repressor factor, PE2 |

## Target Details

Gene ID: 2077

## Application Details

Application Notes: Approved: ELISA, WB

Usage: The applications listed have been tested for the unconjugated form of this product.  
Other forms have not been tested.

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS, no preservatives added

Preservative: Without preservative

Handling Advice: Aliquot to avoid repeated freezing and thawing.

Storage: 4 °C, -20 °C

Storage Comment: Short term: store at 4°C. Long term: aliquot and store -20°C for up to 6 months. Avoid freeze-thaw cycles. Protect from light.

Expiry Date: 6 months
