

Datasheet for ABIN1911396

**anti-MAGOH antibody (AA 46-74) (Biotin)**[Go to Product page](#)

## Overview

|                      |                                                          |
|----------------------|----------------------------------------------------------|
| Quantity:            | 200 µL                                                   |
| Target:              | MAGOH                                                    |
| Binding Specificity: | AA 46-74                                                 |
| Reactivity:          | Human                                                    |
| Host:                | Rabbit                                                   |
| Clonality:           | Polyclonal                                               |
| Conjugate:           | This MAGOH antibody is conjugated to Biotin              |
| Application:         | Western Blotting (WB), ELISA, Immunohistochemistry (IHC) |

## Product Details

|               |                                                                                                                                                                   |
|---------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Isotype:      | IgG                                                                                                                                                               |
| Specificity:  | This MAGOH antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 46-74 amino acids from the Central region of human MAGOH. |
| Purification: | Protein A purified                                                                                                                                                |

## Target Details

|                                                                                 |                                          |
|---------------------------------------------------------------------------------|------------------------------------------|
| Target:                                                                         | MAGOH                                    |
| Alternative Name:                                                               | MAGOH ( <a href="#">MAGOH Products</a> ) |
| Background:                                                                     | Name/Gene ID: MAGOH                      |
| Synonyms: MAGOH, MAGOHA, MAGOH1, Mago nashi protein homolog, Protein mago nashi |                                          |

### Target Details

|          |         |
|----------|---------|
|          | homolog |
| Gene ID: | 4116    |

### Application Details

|                    |                                                                                                                                 |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | Approved: ELISA, IHC, WB                                                                                                        |
|                    | Usage: The applications listed have been tested for the unconjugated form of this product.<br>Other forms have not been tested. |
| Comment:           | Target Species of Antibody: Human                                                                                               |
| Restrictions:      | For Research Use only                                                                                                           |

### Handling

|                  |                                                                                                                                |
|------------------|--------------------------------------------------------------------------------------------------------------------------------|
| Format:          | Liquid                                                                                                                         |
| Concentration:   | Lot specific                                                                                                                   |
| Buffer:          | PBS, no preservatives added                                                                                                    |
| Preservative:    | Without preservative                                                                                                           |
| Handling Advice: | Aliquot to avoid repeated freezing and thawing.                                                                                |
| Storage:         | 4 °C,-20 °C                                                                                                                    |
| Storage Comment: | Short term: store at 4°C. Long term: aliquot and store -20°C for up to 6 months. Avoid freeze-thaw cycles. Protect from light. |
| Expiry Date:     | 6 months                                                                                                                       |
