

Datasheet for ABIN1912147

**anti-MARCH5 antibody (AA 4-32) (PE)**[Go to Product page](#)

## Overview

|                      |                                                                                 |
|----------------------|---------------------------------------------------------------------------------|
| Quantity:            | 200 µL                                                                          |
| Target:              | MARCH5                                                                          |
| Binding Specificity: | AA 4-32                                                                         |
| Reactivity:          | Human, Mouse                                                                    |
| Host:                | Rabbit                                                                          |
| Clonality:           | Polyclonal                                                                      |
| Conjugate:           | This MARCH5 antibody is conjugated to PE                                        |
| Application:         | Western Blotting (WB), ELISA, Immunohistochemistry (IHC), Flow Cytometry (FACS) |

## Product Details

|               |                                                                                                                                                                       |
|---------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Isotype:      | IgG                                                                                                                                                                   |
| Specificity:  | This MARCH5 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 4-32 amino acids from the N-terminal region of human MARCH5. |
| Purification: | Affinity purified                                                                                                                                                     |

## Target Details

|                   |                                                                                     |
|-------------------|-------------------------------------------------------------------------------------|
| Target:           | MARCH5                                                                              |
| Alternative Name: | MARCH5 ( <a href="#">MARCH5 Products</a> )                                          |
| Background:       | Name/Gene ID: MARCH5                                                                |
|                   | Synonyms: MARCH5, MARCH-V, RING finger protein 153, RNF153, Mitochondrial ubiquitin |

## Target Details

ligase, MITOL

Gene ID: 54708

## Application Details

Application Notes: Approved: ELISA, Flo, IHC, WB

Usage: The applications listed have been tested for the unconjugated form of this product.  
Other forms have not been tested.

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS, no preservatives added

Preservative: Without preservative

Handling Advice: Aliquot to avoid repeated freezing and thawing.

Storage: 4 °C,-20 °C

Storage Comment: Short term: store at 4°C. Long term: aliquot and store -20°C for up to 6 months. Avoid freeze-thaw cycles. Protect from light.

Expiry Date: 6 months
