## Overview

|                      |                                       |
|----------------------|---------------------------------------|
| Quantity:            | 200 µL                                |
| Target:              | MCC                                   |
| Binding Specificity: | AA 473-501                            |
| Reactivity:          | Human                                 |
| Host:                | Rabbit                                |
| Clonality:           | Polyclonal                            |
| Conjugate:           | This MCC antibody is conjugated to PE |
| Application:         | Western Blotting (WB), ELISA          |

## Product Details

|               |                                                                                                                                                                 |
|---------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Isotype:      | IgG                                                                                                                                                             |
| Specificity:  | This MCC antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 473-501 amino acids from the Central region of human MCC. |
| Purification: | Protein A purified                                                                                                                                              |

## Target Details

|                                                                 |                                      |
|-----------------------------------------------------------------|--------------------------------------|
| Target:                                                         | MCC                                  |
| Alternative Name:                                               | MCC ( <a href="#">MCC Products</a> ) |
| Background:                                                     | Name/Gene ID: MCC                    |
| Synonyms: MCC, MCC1, Protein MCC, Mutated in colorectal cancers |                                      |

## Target Details

Gene ID: 4163

## Application Details

Application Notes: Approved: ELISA, WB

Usage: The applications listed have been tested for the unconjugated form of this product.  
Other forms have not been tested.

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS, no preservatives added

Preservative: Without preservative

Handling Advice: Aliquot to avoid repeated freezing and thawing.

Storage: 4 °C, -20 °C

Storage Comment: Short term: store at 4°C. Long term: aliquot and store -20°C for up to 6 months. Avoid freeze-thaw cycles. Protect from light.

Expiry Date: 6 months
