

Datasheet for ABIN1915494

**anti-MYBPH antibody (AA 348-376) (HRP)**[Go to Product page](#)

## Overview

|                      |                                          |
|----------------------|------------------------------------------|
| Quantity:            | 200 µL                                   |
| Target:              | MYBPH                                    |
| Binding Specificity: | AA 348-376                               |
| Reactivity:          | Human                                    |
| Host:                | Rabbit                                   |
| Clonality:           | Polyclonal                               |
| Conjugate:           | This MYBPH antibody is conjugated to HRP |
| Application:         | Western Blotting (WB), ELISA             |

## Product Details

|               |                                                                                                                                                                        |
|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Isotype:      | IgG                                                                                                                                                                    |
| Specificity:  | This MYBPH antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 348-376 amino acids from the C-terminal region of human MYBPH. |
| Purification: | Affinity purified                                                                                                                                                      |

## Target Details

|                                                                                        |                                          |
|----------------------------------------------------------------------------------------|------------------------------------------|
| Target:                                                                                | MYBPH                                    |
| Alternative Name:                                                                      | MYBPH ( <a href="#">MYBPH Products</a> ) |
| Background:                                                                            | Name/Gene ID: MYBPH                      |
| Synonyms: MYBPH, H-protein, Myosin binding protein H, Myosin-binding protein H, MyBP-H |                                          |

## Target Details

Gene ID: 4608

## Application Details

Application Notes: Approved: ELISA, WB

Usage: The applications listed have been tested for the base form of this product. Alternate forms, such as conjugated, azide-free, or ready-to-use, have not been tested.

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS, no preservatives added

Preservative: Without preservative

Handling Advice: Aliquot to avoid repeated freezing and thawing.

Storage: 4 °C, -20 °C

Storage Comment: Short term: store at 4°C. Long term: aliquot and store -20°C for up to 6 months. Avoid freeze-thaw cycles. Protect from light.

Expiry Date: 6 months
