## anti-UBAP1 antibody (AA 6-33) (Biotin)

[Go to Product page](#)

### Overview

|                      |                                             |
|----------------------|---------------------------------------------|
| Quantity:            | 200 µL                                      |
| Target:              | UBAP1                                       |
| Binding Specificity: | AA 6-33                                     |
| Reactivity:          | Human, Mouse                                |
| Host:                | Rabbit                                      |
| Clonality:           | Polyclonal                                  |
| Conjugate:           | This UBAP1 antibody is conjugated to Biotin |
| Application:         | Western Blotting (WB), ELISA                |

### Product Details

|               |                                                                                                                                                                     |
|---------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Isotype:      | IgG                                                                                                                                                                 |
| Specificity:  | This UBAP1 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 6-33 amino acids from the N-terminal region of human UBAP1. |
| Purification: | Affinity purified                                                                                                                                                   |

### Target Details

|                   |                                                  |
|-------------------|--------------------------------------------------|
| Target:           | UBAP1                                            |
| Alternative Name: | NAG20 / UBAP1 ( <a href="#">UBAP1 Products</a> ) |
| Background:       | Name/Gene ID: UBAP1                              |

Synonyms: UBAP1, UAP, UBAP-1, Ubiquitin-associated protein 1, Ubiquitin associated protein,

## Target Details

|          |                                             |
|----------|---------------------------------------------|
|          | NAG20, UBAP, Ubiquitin associated protein 1 |
| Gene ID: | 51271                                       |

## Application Details

|                    |                                                                                                                                 |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | Approved: ELISA, WB                                                                                                             |
|                    | Usage: The applications listed have been tested for the unconjugated form of this product.<br>Other forms have not been tested. |
| Comment:           | Target Species of Antibody: Human                                                                                               |
| Restrictions:      | For Research Use only                                                                                                           |

## Handling

|                    |                                                                                                                                |
|--------------------|--------------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                         |
| Concentration:     | Lot specific                                                                                                                   |
| Buffer:            | PBS, pH 7.2, 0.09 % sodium azide.                                                                                              |
| Preservative:      | Sodium azide                                                                                                                   |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.         |
| Handling Advice:   | Aliquot to avoid repeated freezing and thawing.                                                                                |
| Storage:           | 4 °C,-20 °C                                                                                                                    |
| Storage Comment:   | Short term: store at 4°C. Long term: aliquot and store -20°C for up to 6 months. Avoid freeze-thaw cycles. Protect from light. |
| Expiry Date:       | 6 months                                                                                                                       |
