## Overview

|                      |                                                 |
|----------------------|-------------------------------------------------|
| Quantity:            | 100 µL                                          |
| Target:              | NAT10                                           |
| Binding Specificity: | AA 650-700                                      |
| Reactivity:          | Human, Mouse, Rat, Dog, Cow                     |
| Host:                | Rabbit                                          |
| Clonality:           | Polyclonal                                      |
| Conjugate:           | This NAT10 antibody is un-conjugated            |
| Application:         | Western Blotting (WB), Immunoprecipitation (IP) |

## Product Details

|               |                                                                                                                                  |
|---------------|----------------------------------------------------------------------------------------------------------------------------------|
| Specificity:  | Region between residue 650 to 700 of human N-acetyltransferase 10 using the numbering given in entry NP_078938.2 (GeneID 55226). |
| Purification: | Immunoaffinity purified                                                                                                          |

## Target Details

|                   |                                                                                                |
|-------------------|------------------------------------------------------------------------------------------------|
| Target:           | NAT10                                                                                          |
| Alternative Name: | NAT10 ( <a href="#">NAT10 Products</a> )                                                       |
| Background:       | Name/Gene ID: NAT10<br><br>Synonyms: NAT10, ALP, HALP, KIAA1709, N-acetyltransferase 10, NET43 |
| Gene ID:          | 55226                                                                                          |

## Application Details

|                    |                                                            |
|--------------------|------------------------------------------------------------|
| Application Notes: | Approved: IP (2 - 10 µg/mg lysate), WB (1:10000 - 1:25000) |
| Comment:           | Target Species of Antibody: Human                          |
| Restrictions:      | For Research Use only                                      |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | Lot specific                                                                                                           |
| Buffer:            | Tris-citrate/phosphate buffer, pH 7-8, 0.09 % sodium azide.                                                            |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | 4 °C                                                                                                                   |
| Storage Comment:   | Store at 2-8°C for up to 1 year.                                                                                       |
| Expiry Date:       | 12 months                                                                                                              |
